

# HSC HEALTH SCREENING

Protect yourself and your loved ones from illness.  
Get screened with our full body check-up packages.

## Our History

In the last decade, HSC Medical Center has offered trustworthy patient-centric care for local and international patients, primarily in cardiac care and health screening. However, over the year, we've grown into ALTY or "Adding Life To Years", an orthopaedic specialist hospital located at the heart of Kuala Lumpur. Building upon the reputation of HSC Medical Center, ALTY will now provide focused care for spine and joint supported by other medical specialties. Health screening branded as HSC Health Screening will continue to be a key service of ALTY.

## A Diagnostic Centre Within ALTY

### Preventive Healthcare

We focus on the early detection and treatment of diseases and conditions.

### Advanced Technology

We utilise the latest state-of-the-art technology to help with an accurate diagnosis.

### Efficient one-to-one care

We deliver comprehensive and integrated services in a comfortable and safe environment.
